

December 2011

Dear RBP Customer:

Your annual update of MSDS(s) for RBP products can now be accomplished through our website. If you do not have a username and password, please contact Customer Service at 800-558-0747 and one will be provided. If you are a distributor, this information must be forwarded to anyone who purchases RBP products(s) from your organization.

Pull up the MSDS of interest and check its revision date found on the bottom left of the last page of the MSDS. If the date is more recent than the copy you have, simply print a copy or save it electronically for your records.

These MSDS(s) are being provided in accordance with OSHA Hazard Communication Standard 29 CFR 1910-1200. The information on these MSDS(s) does not include all of the protective measures that may be required. Standard references on ventilation, toxicology, and fire prevention should be consulted to adequately utilize the data contained in the MSDS(s).

These MSDS(s) contain information required by the Superfund Amendment Reauthorization ACT (SARA, Title III, Section 313). Information on the 313 chemical content of each of our products is located in the regulatory information section. The DOT information for shipping by ground and the IATA information for air shipments are also located in this section.

If you have questions or require additional information, please contact me at 800-558-0747.

Sincerely,

RBP CHEMICAL TECHNOLOGY
