AQUA WASH

Premium General Press Wash

Description:

An excellent one-step water miscible wash for rollers and blankets. This product contains a unique blend of solvents and surfactants that dissolves ink quickly and removes hardened residual dirt. When used with water, **AQUA WASH** will clean glaze, paper lint and gum from roller and blanket surfaces. Can be diluted to lower VOC content as indicated by the table below.

Directions for Use:

Can be used full strength or diluted to suit your needs. Dilute **AQUA WASH** in water, shake until a light blue milky emulsion occurs.

AUTOMATIC EQUIPMENT: Follow manufacturers instructions.

BLANKETS: Apply with a damp rag or cloth. Wipe across surface until all ink and lint are removed.

ROLLERS: Pour a generous amount of **AQUA WASH** on rollers. Allow press to run while solution works on rollers. Engage wash up blades. When rollers are clean, press is ready to resume operation. Repeat process for difficult clean-up situations. Add water in cleaning of paper coating and lint from rollers or blankets.

Specifications:
