**PRODUCT #: J5030**

# ***GROWTH INHIBITOR***

Fountain Additive

### ***Description:***

***GROWTH INHIBITOR*** fountain additive is a special blend designed to control growth of bacteria and fungus in the pressroom. The product is designed to work as a continuous additive controlling growth and as a “quick kill” product to kill actively growing bacteria and fungi. ***GROWTH INHIBITOR*** can be added to mixing tanks without interrupting production. ***GROWTH INHIBITOR*** is highly concentrated and can be used effectively at relatively low dosage rates.

### ***Directions for Use:***

1. **Fountain Additive for continual use:** Add ***GROWTH INHIBITOR*** at 2.5 oz per 10 gallons to press ready fountain solution mix. Increase dosage by the same amount if biological growth persists.
2. **Additive for “quick kill” use:** Add ***GROWTH INHIBITOR*** at an estimated rate of 1 gallon per 50 gallons of mixed press solution.
3. **Straight addition to RO water tanks**

### ***Specifications:***

<b>Appearance:</b>	Clear to light blue liquid
<b>Density:</b>	8.4 lbs/gal
<b>VOC Content:</b> (EPA Method 24)	None
<b>Flash Point:</b>	None
