LOW VOC UV WASH 6552

Very Low VOC Press Wash for UV Inks

Description:

A low VOC press wash for use with UV inks. In one step, **LOW VOC UV WASH 6552** effectively removes ink and contaminants from rollers and blankets. It does not require a water rinse, but can be used with water to remove paper lint and coating.

Directions for Use:

ROLLER WASH: Pour a generous amount of **LOW VOC WASH 6552** on rollers while press is running. Allow press to run while solution works on rollers. Engage wash up blades. When rollers are clean, press is ready to resume operation. Repeat process for difficult clean-up situations.

BLANKET WASH: Pour a liberal amount of **LOW VOC WASH 6552** on a cloth. Wipe across blanket until residual ink and glaze are removed. For excessive paper coating and lint build-up, dampen cloth with water before applying **LOW VOC WASH 6552**.

Specifications:

Appearance:	Clear amber yellow liquid
Density:	8.5 lbs/gal
VOC Content: (EPA Method 24)	2.1 lbs/gal, 256 g/L, 25 %
Flash Point:	110 °F
