PLASTIC PLATE DESENSITIZER

Fountain Additive

DESCRIPTION: Designed to prevent scumming and tinting problems that typically occur when running plastic or polyester plates with a conventional fountain solution. **PLASTIC PLATE DESNSITIZER** contains ingredients that adhere to the non-image areas of silver emulsion plastic plates and promote a "water loving" environment for the non-image area.

SPECIFICATIONS:

Flash Point (TCC):	None
Appearance/Odor:	White liquid with no odor
VOC Content (EPA Method 24):	None

INSTRUCTIONS: Add 0.5 to 1.5 ounces of plastic plate desensitizer to each gallon of press ready mix. A good starting point is 1.0 ounces per gallon.

PLASTIC PLATE DESENSITIZER is compatible with both metal and plastic type plates. RBP recommends using with its **UNITROL® 953** and **AQUA SERIES 174**. Call and RBP Technical Service Representative for more information.

BENEFITS:

- No VOCs
- No SARA Title III chemicals
- Eliminates scumming and tinting associated with plastic plates
- Compatible with both plastic and metal plates
- Minimal usage required
- Compatible with a large number of fountain concentrates
