RE-START 7001

High-Performance Alkaline Plate Cleaner

Description:

Re-start 7001 is a water based alkaline plate cleaner that will effectively remove lint, ink, and sensitivity from the printing plate. This product contains ingredients that will desensitize the non-image area of the plate and provide clean, fast start-ups for reduced paper waste. **Re-start 7001** is easy to use, either by hand or spray and contains negligible VOC's and no phosphates.

Directions for Use:

Hand – Apply **Re-start 7001** to a clean dampened rag, cloth, or sponge. Wipe across plate surface until ink and contaminants are removed.

Spray – Squirt the **Re-start 7001** onto the dampening roller while press is running to clean the plate up on a re-start or start-up. Do not over use, as the excess water may break the web.

Specifications:

Appearance:	Clear liquid
Density:	8.5 lbs/gal
VOC Content: (EPA Method 24)	0.41 lbs/gal, 17 g/L, 2%
Flash Point:	> 212°F
