ROLLER LUBE

For Use on Rubber Transfer Rollers

Description:

Roller Lube was specifically formulated to help protect rubber transfer rollers from damage caused by friction. This product will also reduce ink transfer at the roller ends when running narrow webs. **Roller Lube** is safe for use on all rollers used for heatset and coldest printing. This product has a very low odor, high flashpoint, and is very low in VOC's.

Directions for Use:

Apply a liberal amount of **Roller Lube** to exposed portions of rubber transfer rollers. Do not use on EPDM rollers or in UV ink applications.

Specifications:

Appearance:	Clear water white to yellow liquid
Density:	7.0 lbs/gal
VOC Content: (EPA Method 24)	0.27 lbs/gal, 33 g/L, 3.9 %
Flash Point:	> 200°F

This product should be used only for its intended purpose. The information stated above is based on our laboratory tests and experience, and is accurate to the best of our knowledge. Since actual use is beyond our control, the recommendations or suggestions are made without warranty, expressed or implied.
